

UNO NAVY INFORMATION & TECHNOLOGY CENTER BLDG #4

New Orleans, LA

PROJECT OVERVIEW

Located on the shores of Lake Pontchartrain, the University of New Orleans Navy Information Technology Building #4 was the last of four identical buildings to be constructed within the University's Technology Park. The project was a ground-up construction of a five-story, 105,000 SF, structural steel office building with a metal exterior skin. The concrete work on this project was completed in record time which allowed the fourth building to be completed faster than the previous three. This success was a direct result of proper planning and flawless execution.

OWNER

Mr. Bob Farnsworth
National D-Day Museum
(Formerly of Columbus
General Properties, Owner)
945 Magazine Street
New Orleans, LA 70130
504.527.6012

QUICK FACTS

Construction Cost: \$6,768,000

Start Date: April 2001

Completion Date: March 2002

"... The willingness of Allan McDonnel and his senior staff in expeditiously solving problems, is the best thing about collaboration with The McDonnel Group. Also, Mr. McDonnel brings alternate means and methods to the table to accommodate tight budgets and retain the design intent of the program....."
